Curved stairlift Salva escaleras con curva

COLOURS FOR THE SEAT
COLOR ASIENTO

Rouge - Rot

Beige - Beige

Bleu - Blau

Green - Verde

The Vimec stairlifts A52 can be fitted to all types of stairs with constant or variable gradient and are suitable to every environment without compromising the style of furnishing. They don't require replacement of banisters or particular building work.

Las salva escaleras Vimec A52, con asiento son adaptables a todo tipo de escaleras con pendientes fijas o variables, ajustándose a todo tipo de contextos sin desnaturalizar el estilo de la vivienda. No son necesarias sustituciones de barandillas o modificaciones de obra particulares.

- According to the European Directive "EMC compatibility"
- According to the European Directive "Low Voltage"
- Conforme a la Directiva Europea "Compatibilidad EMC"
- Conforme a la Directiva Europea "Baja Tension"

TECHNICAL DATA • DATOS TECNICOS

Minimum stair width	mm	770
Ancho minimo escalera		
Gradient	degrees	from 0° to 51°
Pendiente	grad	de 0° a 51°
Minimum rail overall dimensions	mm	125
Ocupacion minima guia		
Minimum rail overall dimensions with folded footrest	mm	400
Ocupacion peana cerrada		
Footrest dimensions	mm	360x330
Dimensiones peanas		
Load capacity	Kg	125
Carga util		
Speed	m/min.	6,5
Velocidad		
Voltage	V	24 dc
Alimentacion		
Power consumption	Kw	0,1
Consumo
